

SOH Sanggu Academic Subsidy (SAS)

Presentation Guidelines

The presentation for your SOH SAS application is a pertinent decision point that can determine how much of your subsidy request is granted. Your presentation should aptly reflect the significant points from your project that will help the panelists judge its **relevance and need**. Below are the *suggested* content of your presentation in no particular order:

1. Project Description
 - a. You may give a brief description in bullet points.
2. Project Objectives
 - a. What do you aim to do or achieve in executing this project?
3. Scope
 - a. Who are you working with for your project?
 - b. Who or what will your project affect?
4. Methodology/Process
 - a. How did you gather your data?
 - b. How did you come up with this product?
5. Breakdown of Expenses
 - a. You may list an estimate of your expenses if your project is still ongoing.
6. Sources of funding
 - a. For example, personal, family support, sponsors, etc.

You are free to add content that you think will help the panelists judge your project better. Photos are most welcome in your presentation, especially when your project involves making a product or doing fieldwork. Take note, your presentation will be a **maximum of 10 mins**, with a **maximum of 5 mins for a question and answer portion**.

Thank you, and good luck! :D
